

22 delicious years!

ONE (1) 20 or 30 amp (120 volt) outlet will be provided to all bbq teams. If you need a 30 amp connection (for an RV), please provide your own RV adaptor plug! Please call Diane at Biermann Electric and let her know if the outlet you will be provided needs to be a 20 amp or a single 30 amp RV connection.

If you need additional outlets or amps (i.e. a 50 amp RV connection), you will need to work with Biermann Electric to get that added @ an additional charge.

You can reach them at:
